RESOLUTION NO. 01, SERIES OF 2026
RESOLUTION AUTHORIZING THE SALE OF LANYARDS AS AN INCOME-GENERATING PROJECT (IGP)

A RESOLUTION GRANTING AUTHORIZATION FOR THE SALE OF LANYARDS AS AN INCOME-GENERATING PROJECT (IGP).

WHEREAS, the Student Society in Information Technology Education – NEUST requires financial support to carry out activities, programs, and initiatives that are beneficial to its members;

WHEREAS, the Organization recognizes the potential of Income-Generating Projects (IGPs), such as the sale of lanyards, to raise additional funds;

WHEREAS, the sale of lanyards as an Income-Generating Project (IGP) aligns with the Organization’s objectives to promote unity, strengthen the sense of belonging, and raise funds in a sustainable manner;

WHEREAS, all proceeds generated from the sale of the Income-Generating Project (IGP) shall be allocated exclusively for operational expenses, projects, and programs that directly benefit the members of the Organization;

WHEREAS, the official SSITE lanyards shall be offered at a selling price of ₱90.00 each, with an estimated production cost of ₱60.00 per lanyard and a ₱30.00 mark-up per unit, wherein the mark-up shall form part of the funds allocated exclusively for the Organization’s operational expenses, projects, and programs;

WHEREAS, participation in the purchase of the official SSITE lanyard is purely **voluntary** and **shall not be mandatory**, and no student or member shall be required to purchase the lanyard as a condition for membership, participation in Organization activities, or the enjoyment of any rights and privileges;

NOW, THEREFORE, BE IT RESOLVED, that copies of this resolution be furnished to the concerned offices for their information and guidance.

APPROVED this 23rd day of July, 2026, at NEUST Sumacab Campus, College of Information and Communications Technology

COLOR, MEASUREMENT & OUTPUT DISCLAIMER

Print Kids strives to produce outputs as close as possible to approved designs. However:

- Printed colors may vary slightly due to monitor calibration, lighting conditions, ink behavior, and material differences
- Different materials absorb and reflect ink differently, affecting final appearance
- Minimal variations in scale, spacing, trimming allowance, alignment, and positioning may occur during production
- Actual output measurements may slightly differ from digital mockups or proofs due to machine tolerances and material behavior
- Minor production variances are considered industry-acceptable and do not qualify as defects
- Digital proofs and mockups serve as visual guides only and are not exact representations of final printed output.
